

Use AI for Everyday Tasks

Instructor

Name: Joe Holmes

Bio: Joe Holmes is a Curriculum Developer in ML/AI at Codecademy, where he has developed courses on fine tuning, retrieval augmented generation, reasoning models, agentic systems, and more. He first fell in love with machine learning with the release of GPT-3 in 2020 and has developed content for Deeplearning.ai, Quantic School, and Sanity.io in addition to Codecademy. He lives in Bridgewater, VA with his fiancé and four pets.
